

November 2021
RAC Equity and Assessment Discussion

The group read the Hope Center's 2021 Basic Needs Insecurity Report and then discussed the following questions:

1. What kinds of basic needs insecurity have you seen in your students during the pandemic and in this first semester back after quarantine?
2. What kind of resources have you provided for these students in need?
3. Knowing that you have students with basic needs insecurities, how have you adjusted your teaching and assessments to better serve them?
4. What resources might you still need to better support your students, your teaching, and their learning?
